Greetings!

Welcome friends.

You are about to begin a massive reconstruction project. You are also about to embark on a journey into the mind of God. In our natural state, there exists a great chasm between human and divine thinking. But our Creator-Savior wants to fix that problem. He wants to transform our minds so that our lives can become the living and holy sacrifices they were intended to be. God truly does want to transform us into new people by changing the way we think.

I trust that the following questions in this study guide will lead you into a place where minds can be renovated, where weak and faulty human thinking can be ripped out and replaced with supernatural ideas in line with God's thinking. This is only the beginning of a great and challenging project, a necessary undertaking for everyone who is serious about their Christian faith.

We cannot be content with our tiny human thinking—it is so deceptive and destructive because it is based on a satanically inspired worldly system. Worldly reasoning can appear harmless, even quite intelligent at times. But an honest appraisal of natural human wisdom finds it to be completely wanting. Human thinking will continually disappoint us and frustrate our attempts to find true meaning in life. It is time to tear out those destructive thought patterns and reconstruct our minds with God's truth as revealed in his Word.

Proceed with caution! You are now entering a work zone.
